

# Ali-Flex® Twist

Low foam disinfectant cleaner

Ali-Flex® Twist is a low foam disinfectant cleaner based on stabilized sodium hypochlorite (4.0% / 40,000 ppm when packed) and powerful cleaning agents. Its formula prevents corrosion. When Ali-Flex® Twist is used with the Twist & Mixx dispensing system, the final concentration (ready to use) is 6000 ppm.

The cleaning agents in Ali-Flex® Twist enables the liquid to wet entirely non-porous surfaces, like countertops, walls, floors, toilets, commode chairs, etc..., while degreasing and penetrating through dirt (such as urine, blood and feces).

## Advantages

- Compatible with the Twist & Mixx gravimetric dispensing system
- Low foam formula
- Formula preventing corrosion
- Produce a 6000 ppm sodium hypochlorite solution upon dilution
- Virucidal / Bactericidal / Fungicidal
- Contains powerful cleaning agents
- Low odor

## Physical and chemical properties

Appearance .....	Pale yellow liquid
Odor .....	Unscented
Viscosity (25 °C) .....	< 10 cPs
pH (25 °C) .....	11.7 - 14.0
Solubility .....	Water soluble
Specific gravity (25 °C) .....	1.060 - 1.080
Flammability .....	Non-flammable
Stability .....	Stable 1 year between 15 °C and 30 °C
Storage .....	Avoid frost and excessive heat
Active ingredient .....	Sodium hypochlorite
Percentage of active ingredient (concentrated) .....	4.0%

## Yield (liters of diluted product)

12 L / cartridge

Available format

2 L
