

 Cut-Resistant

HyFlex® 11-624 Glove

Advanced Cut Protection Never Felt This Good.

Safety and comfort combined.

No other glove offers the dynamic mix of protection and comfort of the HyFlex® 11-624 glove. The cut resistance and lightweight ergonomic fit strike the perfect balance of protection and precision when working with small, sharp parts.

Maximize safety and productivity.

The HyFlex® 11-624 glove is a simple and effective way to decrease injury expenses without reducing productivity or quality. That's because it combines superior cut protection, abrasion resistance, grip, tactility, and dexterity in a comfortable glove your workers are more likely to wear.

Outstanding Product Attributes & Benefits

Cut Resistant DSM Dyneema® engineered yarn composition with Ergonomic design

- Offers user unmatched combination of comfort, softness, coolness & cut protection
- Advanced fiber technology increases worker confidence while on the job
- EN 388 Level 3 / ANSI Level 2
- Soft and cool to the skin for all-day comfort
- Molds naturally to hand, preventing fatigue, while providing comfort
- Exclusive fiber combination provides exceptional precision, dexterity and flexibility when handling small parts
- Extensive size range protects more workers (6–11)

Good Oil & Dry Grip

- Proprietary black ployurethane coating provides a sure grip in light oil, dry application and when handling sharp objects
- Good resistance to tears and punctures that might occur when handling sharp parts in dry and light oil applications
- Black palm coating hides soil providing longer wear and reducing over-all replacement costs

Durable and Launderable

- Polyurethane coating provides excellent abrasion vs. other coatings
- Product can be washed & re-used without any loss of cut protection
- Minimal shrinkage and excellent recovery after washing extends wear
- Ability to launder reduces total cost of ownership

Industries

- Automotive
- White Goods
- Electronics & Electrical
- Durable Goods
- Tier 1
- Metal Fabrication
- Aerospace
- Paper Industry
- Plastic & Rubber Manufacturing
- Glass Products

Applications

- Final and sub-assembly areas for use when handling metal components
- Glass handling and installation
- Small part stamping
- Wiring
- Forming, machining and bending of small parts
