

COMPACT SPILL KIT UNIVERSAL

- ISSUE:** Most plants or fleets that encounter leaks, drips, sprays or spills are required to maintain a spill control plan. Potential safety hazards are present around machinery or storage areas where a risk of injury or chemical reaction is possible.
- SOLUTION:** Be prepared with a spill control plan that can be implemented with absorbent products readily available, either to use in case of an emergency, or to control daily leaks and spills that may occur.
- DESCRIPTION:** Oil-Dri offers this compact spill kit. This convenient, quick-response spill kit has all the tools needed for emergency cleanup! All items come packed in a bucket for convenient storage.

OUR KIT HOLDS:

- 2 universal socks
- 10 universal bonded pads
- 1 disposable bag with tie
- 1 bucket

COMPACT SPILL KIT UNIVERSAL

DIRECTION FOR USE

STEP

1

STOP LEAK AT SOURCE TO PREVENT SPILL FROM GROWING. USE SOCKS TO SURROUND SPILLS OR TO DIKE OR DIVERT FLUID FLOWS.

STEP

2

USE PADS BY PLACING IN CENTER OF SPILL TO ABSORB FLUID AND TO FINISH IT OFF.

STEP

3

USE DISPOSAL BAG AND TIE TO CONTAIN USED ABSORBENTS. DISPOSE OF USED ABSORBENTS IN ACCORDANCE WITH PROVINCIAL AND FEDERAL LAWS.
