

SYNTHETIC ABSORBENTS UNIVERSAL

UNIVERSAL SYNTHETIC ABSORBENTS

are made of Meltblown Polypropylene and are GREY.

Use Universal Absorbents on:

- Water
- Grease
- Oils
- Coolants
- Acids

These absorbents come in:

- Pads
- Rolls
- Rugs
- Socks

They are available in **LIGHT**, **MEDIUM** and **HEAVY-WEIGHT VARIETIES**.

Each weight will absorb a certain quantity of liquid. The heavier the material, the more it will absorb.

FEATURES & BENEFITS

- **Eliminates Guesswork** - Can be used on all liquids including acids and bases and unknown liquids.
- **Superior Retention** - Holds liquids in
- **Durable** - Bonded for strength, will not tear apart in normal conditions
- **Incinerable** - Reduces disposal costs
