## Advancing Vacuum Technology

The new design of the PSP series has led to significant advances in energy consumption as well as overall vacuum performance. They consume 40% less energy than previous models while improving performance by 20%. This is all thanks to the new 680 watt vacuum motor with a 2000+ hour life.

### Standard Features:

- CRI approved and LEED-EB compliant
- 5 year motor warranty
- Motor provides 100" waterlift and 120 CFM of airflow
- 84% soil recovery
- Motor life is in excess of 2000 hours
- Excellent 0.3 micron filtration at 99.97 % efficiency for improved Indoor Air Quality
- Tapered hose is convenient and provides improved performance
- Our new floor tool program improves performance, productivity and ease of use.
- Easy to use cord wrap system allows the power cord to be stored neatly without tangles
- New plug cable system allows anyone to change a power cord
- Structural foam tanks for maximum durability and mobility
