

# STOKOLAN®

**Highly concentrated skin care cream soothes dry, cracked, irritated skin and helps keep skin smooth and healthy.**

**Description**

STOKOLAN® is a concentrated, silicone free conditioning cream that spreads easily and works quickly into the skin.

STOKOLAN® has been proven very effective in helping to replace lost moisture and oils thereby helping to prevent dry, rough, chapped and even cracked skin caused by work-related conditions. If applied regularly, it helps to maintain skin health, keeping it soft and providing a smooth appearance.

**Product Description**

White, scented, silicone-free stearate cream of the oil-in-water emulsion type.

Density (at 68°F): 0.950-0.999 g/cm<sup>3</sup>

**Areas of Application**

STOKOLAN® is ideal for use in any industrial setting, as well as many other workplace settings. It is particularly helpful in situations where people have to work with solvents, without gloves and where people are exposed to cold and/or dry weather conditions. Many office workers use STOKOLAN® to help with dry skin.

**Instructions for Use**

Rub small amount of STOKOLAN® thoroughly onto clean, dry skin. May be applied to the face.

STOKOLAN® should be regularly applied after work. In cases where no special before work skin products are used, it can be applied before work and after breaks.

<b>Features</b>	<b>Benefits</b>
Concentrated Moisturizer (High Lipid Content)	Helps to add moisture that has been depleted during workday. Also means product does not have to be reapplied after every hand wash.
Non-greasy Formula	Workers won't lose their grip on tools, equipment , etc.
Silicone-free	Will not leave "fisheyes" on electronic parts and painted surfaces
Excellent Skin Compatibility	Leaves soft, smooth skin with regular use
Gender Neutral Fragrance	Appeals to male workers

...keeping working skin healthy.

## Skin Compatibility Tests

STOKOLAN® demonstrated an excellent skin compatibility in thorough clinical testing using the scarified Duhring Chamber Test.

Table: Skin compatibility of STOKOLAN® in the scarified Duhring Chamber Test<sup>1</sup>

Product	Irritation <sup>2</sup> $\bar{x}$	Average tolerated application time <sup>3</sup> h (hours)
STOKOLAN®	0.8	68.2
Vaseline DAB	1.0	63.4

1) n=25

Test period: March, 1998

Test concentration: undiluted

2) Averages of the cumulative irritation parameters, skin redness, scaling and fissuring, each evaluated visually based on a rating scale of 0 (no symptoms) to 4 (strong symptoms).

Maximum value  $\bar{x}$  = 12 (most severe symptoms)

3) Maximum application time:  $\bar{h}$  = 72 hours (1<sup>st</sup> day 24 hrs; 2<sup>nd</sup> day 24 hrs; 3<sup>rd</sup> day 24 hours).

## Ingredients

Water

Paraffinum Liquidum

Glycerin

Glycerin Stearate SE

Lanolin Cera

Stearic Acid

Cetearyl Alcohol

Urea

Potassium Stearate

Methylparaben

Dehydroacetic Acid

Sorbic Acid

Propylparaben

Fragrance

## First Aid

For external use only. If STOKOLAN® accidentally enters the eyes, flush immediately with lukewarm water.

## Packaging Sizes

100ml Tube - Stock # 33869

1000ml SOFTBOTTLE - Stock # 33886

(to be used with the STOKO VARIO ULTRA® dispenser)

## Shelf Life

STOKOLAN can be stored in a closed container at room temperature for up to 30 months.

All STOKO® Skin Care products are tested for stability at temperatures between 23°F and 104°F. When tested at temperatures below 41°F and above 86°F, the products begin to fluctuate in viscosity. Hand cleaners may become cloudy or freeze partially at temperatures of 32°F or below. However, they are usable after thawing.

## Additional Information

Occupational skin irritation, frequent washing or harsh climates can lead to dry, rough or chapped skin, and often result in reddening and scaling. This loss of moisture and oils leads to brittleness of the outer layer of the skin. Consequently, the skin loses its natural protective function and becomes more susceptible to harmful substances. In many cases, rough skin indicates the onset of occupational skin disease and could be a sign of attrition dermatosis.

To help maintain skin health and a soft, smooth skin appearance, daily use of STOKOLAN is recommended. STOKO® LOTION is a conditioning lotion that is suitable for those needing a less concentrated product. People who have extremely rough, very dry or very sensitive skin are advised to use STOKO® VITAN.

The use of a before work skin care product and a specialized skin cleanser, in addition to the proper skin conditioning product, is recommended for those whose skin is frequently in contact with hazardous substances. Contact STOKO® Skin Care or its appointed distributors for advice on selecting the appropriate products.
