- Improves view of production & quality control areas

## CONVEX

### INTERIOR CONVEX

- >100 Degree angle of view
- Ball & Swivel plate attached directly to mirror for lightness & economy
- Comes with telescoping arm & bracket

Item #	Description
1000CI12	12" Interior Convex
1000CI18	18" Interior Convex
1000CI26	26" Interior Convex
1000CI30	30" Interior Convex
1000CI36	36" Interior Convex

### EXTERIOR CONVEX

- >100 Degree angle of view
- Ball & Swivel plate bolted to weatherproof back
- Weatherproof metal frame
- Comes with telescoping arm & bracket
- Metal Back (high wind) optional

Item #	Description
1100CE12	12" Exterior Convex
1100CE18	18" Exterior Convex
1100CE26	26" Exterior Convex
1100CE30	30" Exterior Convex
1100CE36	36" Exterior Convex

## DOMES

### 360° FULL DOME

- For 4-way intersections
- Comes with chains & hooks for hanging (T-Bar clips available for drop ceilings)
- Edges protected by steel-reinforced, black bumper

Item #	Description
2000FD18	18" 360° Full Dome
2000FD24	24" 360° Full Dome
2000FD33	33" 360° Full Dome
2000FD48	48" 360° Full Dome

### 180° HALF DOME

- For "T" intersections
- Should be fastened to wall or ceiling (hanging requires 360° dome)
- Edges protected by steel-reinforced, black bumper

Item #	Description
2000HD18	18" 180° Half Dome
2000HD24	24" 180° Half Dome
2000HD33	33" 180° Half Dome
2000HD48	48" 180° Half Dome

### 90° QUARTER DOME\*

- For corner intersections
- Must be fastened to ceiling (If not possible, use convex mirror instead)

Item #	Description
2000QD18	18" 90° Quarter Dome
2000QD24	24" 90° Quarter Dome
2000QD33	33" 90° Quarter Dome
2000QD48	48" 90° Quarter Dome

\* Note: Sizes indicated are for the full dome from which the quarter dome is taken. Actual measurement of the quarter dome is therefore smaller than indicated.
