

TTV4555

The TTV 4555 is the next generation in walk behind auto-scrubbers. Offering a choice between 17" or 20" scrub widths, all without tools, there simply isn't a more advanced scrubber on the market today.

Key Features

- Two sizes in one machine without the need for tools
- 16 tanks provide the capacity needed for large jobs
- Traction drive motor moves them at speeds up to 4.3 mph
- Fully adjustable flow rate from 0.25 gpm to 1 gpm ensures correct amount of water is used
- Onboard chemical dispensing system allows for 32:1, 64:1, 96:1 and 128:1, guaranteeing proper chemical usage
- LED control panel continuously provides operator with chemical, vacuum, water flow, brush pressure and battery status
- Tear-away squeegees equipped with quick-release squeegee blades for easy cleaning
- Maintenance-free gel batteries provide 2.5–3.5 hours of run time
- Onboard chargers permit charging anywhere while low-voltage shutoff prolongs battery life
- The gel batteries emit 1/40 of the hydrogen gas of wet lead acid batteries, are spillproof and can be charged anywhere The safest, most dependable and longest-life batteries on the market

Solution Capacity	16 Gallon
Recovery Capacity	16 Gallon
Cleaning Width	17" / 20"
Brush Motor	2 x 400 W
Brush Pressure	90 LBS
Brush Size	17" / 20"
Brush Speed	150 RPM
Vacuum Motor	400 W, 0.5 HP,
Noise Level dB(A)	65
Battery AH	100AH
Battery Type	4 X 12V (GEL)
Charger	100AH

Chemical Capacity	1.3 Gallons
Dilution Rate	.25-.5-.75-1 ounce per gal
Pad Size	17" / 20"
Pump Type	DIAPHRAGM
Run Time (max)	2.5 - 3.5 Hours
Traction Motor	250W .3 HP
Traction Speed	0.3 - 4.3 MPH
Turning Radius	
Weight	492 LBS
Dimensions (LxWxH)	57"x21.65"x45"
Working capacity	24,200
Maximum Gradient	11 Degrees
