

Product Information

Stokoderm® Grip PURE

Versatile skin protection product designed for sensitive skin to be effective against both oil-based and water-based materials.

Description

Versatile skin protection product for sensitive skin exposed to changing, not clearly defined dermatological stress. Stokoderm® Grip PURE contains an active ingredient combination of an astringent active ingredient, surfactants and emollients. The product is effective against both oil-based, and water-based materials. Stokoderm® Grip PURE was specially developed for particularly sensitive skin and is perfume-free, dye-free and preservative-free.

Area of Application

Use of water-soluble and water-insoluble materials and/or activities in changing work areas. Not clearly defined and unspecific skin risks. Stokoderm® Grip PURE sensitive can also be applied under gloves.

Product Description

White, perfume-free, dye-free, and silicone-free cream. Oil-in-water (o/w) emulsion type.

Instructions for Use

Apply to clean and dry skin before starting work, after washing hands and after any lengthy breaks.

Rub small product amount on the areas of skin at risk, including between the fingers and on the fingernails.

NB: Using pre-work creams does not release you from your duty to take the prescribed protective measures.

Features	Benefits
With skin protectant Eucoriol®, waxy substances and selected emollients	The astringent properties result in increased firmness of the top layer of skin (stratum corneum) Very good efficacy with a broad field of application
Preservative-free, perfume-free and dye-free	Ideal for individual intolerances to preservatives, colorants or perfumes
HET-CAM confirmed tolerance by the mucous membranes	Can be used on the face
Silicone-free	No adverse effects when coating surfaces
Dermatologically confirmed skin compatibility ECARF awarded	Very good skin compatibility Ideal for people suffering from allergies Suitable for sensitive and eczema-prone skin

Ingredient List

AQUA (WATER), ETHYLHEXYLSTEARATE, GLYCERYL STEARATE SE, GLYCERIN, CETEARYL ALCOHOL, SODIUM BISCHLOROPHENYL SULFAMINE, ISOPROPYL PALMITATE, GLYCOL DISTEARATE, XANTHAN GUM, CETEARETH-6, CETEARETH-25, 1,2-HEXANEDIOL, CAPRYLYL GLYCOL, TROPOLONE

Skin Compatibility Tests

Stokoderm® Grip PURE has proven to have very good skin compatibility properties in human-experimental tests and in practical use.

Medically certified skin compatibility expert reports prepared by Prof. Dr. med. S. W. Wassilew, MD for Dermatology, Allergology, Environmental Medicine, are available upon request.

Efficacy Tests

The protective action of Stokoderm® Grip PURE was tested on the analogue product with preservatives using the modified Repetitive Occlusive Irritation Test (ROIT), a modern skin physiology in vivo process. The protective action was tested. The model irritants are occlusively applied to the skin twice a day for 30 minutes over a period of four days. The resulting skin irritation is defined and compared with the help of the visual score (VS); the resulting barrier damage with the help of the transepidermal water loss (TEWL).

ECARF Seal of Quality

The European Centre for Allergy Research Foundation (ECARF) awards the ECARF-quality seal to allergy-friendly products. Cosmetics can receive this seal when following criteria are met:

1. Quantitative risk assessment of the product ingredients with respect to their potential for sensitization, taking into account their specified conditions of use and amount
2. Medically supervised clinical trials by volunteers with atopic dermatitis
3. Approved system of quality control management

Statutory Regulations

This product is manufactured and labeled in compliance with the Federal Food, Drug, and Cosmetic Act.

Safety Data Sheet

Safety Data sheets are available from www.debgroup.com/ca/msds.

Quality Assurance

All raw materials used for production undergo a thorough quality control process before being used for manufacturing in Deb's high quality products.

All finished goods are subject to intensive quality testing before being shipped out to our customers.

All products meet the bacterial purity standards as they apply to medicines for external use (as defined by Ph. Eur.).

<10² reproducible germs / g product.

Verification tests in this respect are a regular feature of our quality assurance procedures.

Storage Information

This product has a shelf life of 30 months after manufacturing when stored at room temperature.

First Aid

For external use only. Avoid eye contact. Should product enter the eyes, rinse immediately with plenty of water. Seek medical advice, if condition persists.

Additional Information

Expert reports and certificates are available upon request.
