

A Green Alternative to Latex

KLEENGUARD* G10 Grey Nitrile Gloves

Designed for tasks requiring maximum dexterity, KLEENGUARD* G10 Grey Nitrile gloves provide excellent tactile sensitivity and comfortable, latex-like feel without natural rubber latex. They're also an environmentally friendly option, offering 50% more gloves per case, which means less packaging waste and added space.

Typical Uses

- Small parts handling
- Electronics assembly

- Better performance
- Better for the environment
- Better value

Better Performance

The Protection of Nitrile

Our manufacturing process boosts the tensile strength of nitrile - the force required to break through the glove - to increase its already superior barrier protection qualities.

The Sensitivity of Latex

The process also allows a reduction in glove thickness, which means less force is required to stretch the material. That provides a latex-free glove with the dexterity and sensitivity of natural rubber latex.

Features

- Textured fingertips
- 3.5 mil thickness improves tactile sensitivity
- 50% more gloves per case
- Approved for food handling
- Latex-free and powder-free
- Tensile Strength = 40 mPa
- AQL = 4.0

Better for the Environment

Environmentally Friendly Packaging	Waste Savings Using KLEENGUARD* G10 Grey Nitrile Gloves		
KLEENGUARD* G10 Grey Nitrile Gloves	Cases per Month	Saving: lbs per Year	Saving: tons per Year
<ul style="list-style-type: none"> • 50% more gloves per case • 33% more storage space • 39% less waste (by weight) • Sensitivity of latex • Protection of nitrile 	25	2,200	1.0 
	50	4,400	2.0 
	100	8,600	4.0 
	150	13,000	6.0 
	200	17,400	8.0 

Better Value

We have built a product that lowers waste without sacrificing strength, comfort or protection. Improving performance means better value for you and your business.
