

## Description:

This product is a floor maintenance scrubbing pad made of polyester and nylon fibers in an open-web construction. Abrasive particles are dispersed throughout and bonded to the non-woven construction with a durable resin system that permeates the entire pad. The pads are nominally one inch thick and sized to fit standard swivel pad holder.

## Applications:

This product is used with water or detergent solutions for cleaning and medium-duty scrubbing of hard surface floors, baseboards and stairs. The pads are designed for use with the swivel pad holder system to reach floor areas not accessible to standard floor machines.

This product fits 3M™ Doodlebug™ Pad Holder 6472 or 3M™ Doodlebug™ Handblock Pad Holder 6473

## Features and Benefits:

Uniform coating throughout every 3M™ Doodlebug™ pad reduces the number of knots and clumps, which eliminates scratching of floors while providing greater consistency and extended pad life.

Pads are reversible and will not be significantly affected by water, detergents, or cleaners normally used for floor maintenance.

## Packaging and Marking:

Each carton shall be labeled to identify the contents by product name, size and manufacturer.

- 5 pads per box
- 4 boxes per case

## Standard Sizes:

Pads are nominally one inch thick, 10 inches long and 4-5/8 inches wide.

## Pad Use and Cleaning:

Dust mop or sweep floors prior to scrubbing. Pick up dirty solution with a mop or wet vacuum. Rinse floor and let dry prior to recoating or opening to traffic.

Pads may be hosed out using a pressure spray nozzle to remove soil. Pads may be soaked in detergent or diluted stripping solution to dissolve caked soil or finish prior to hosing out.

## Storage:

Store indoors in original packaging and under normal facility conditions.

## Typical Physical Properties and Performance Characteristics

	3M™ Doodlebug™ Blue Scrub Pad 8242	Test Method
Fiber Type	Nylon/Polyester Blend	
Fiber Size	Mixture of Sizes	
Color	Blue	
Weight (4" by 6")	21.2 g	
Thickness	1" Nominal	SB 66
Aggressiveness	1.2 g	SB 3.0
Wear (Weight Loss)	10%	SB 2.0
Packaging Recycle Content	50-100% post-consumer recycled material
