

Ali-Flex® 1250

Disposable disinfectant cleaner microfiber wipes

Technical Data Sheet

DIN 02447045

#9665

Ali-Flex® 1250 are premoistened disinfectant wipes that is ready to use with stabilized sodium hypochlorite (0.125% / 1250 ppm). This unique product offers a lot of advantages. The 70% microfiber wipes of Ali-Flex® 1250 are time saving and user friendly because the product doesn't require additional dilution or manipulation of concentrated chemicals. The cleaning agents in Ali-Flex® 1250 enable the liquid to wet entirely non-porous surfaces, while degreasing and penetrating through dirt (such as urine, blood and feces). The product can also be used in food establishments.

Advantages
