

# Ali-Flex® 6000

## Disposable disinfectant cleaner microfiber wipes

### Technical Data Sheet

DIN 02450690

#9655

Ali-Flex® 6000 are premoistened disinfectant wipes that are ready to use with stabilized sodium hypochlorite (0.6% / 6000 ppm). This unique product offers a lot of advantages. The 70% microfiber wipes of Ali-Flex® 6000 are time saving and user friendly because the product doesn't require additional dilution or manipulation of concentrated chemicals. The cleaning agents in Ali-Flex® 6000 enable the liquid to wet entirely non-porous surfaces, while degreasing and penetrating through dirt (such as urine, blood and feces). The product can also be used in food establishments.

### Advantages

- 70% microfiber wipes ready to use
- Contains 6000 ppm of stabilized sodium hypochlorite
- Virucidal/ Bactericidal/ Fungicidal
- Economize energy required to clean
- Contains powerful cleaning agents
- Has an indicator to track product's freshness
- Formule preventing corrosion
- Low odor
