

Ali-Flex® LF

Low foam disinfectant cleaner

Ali-Flex® LF is a low foam disinfectant cleaner based on stabilized sodium hypochlorite (2.4% / 24,000 ppm when packed) and powerful cleaning agents. Its formula also prevents corrosion. The cleaning agents in Ali-Flex® LF enables the liquid to wet entirely non-porous surfaces, like countertops, walls, floors, toilets, commode chairs, etc..., while degreasing and penetrating through dirt (such as urine, blood and feces). Ali-Flex® LF can also be used in food establishments.
