

Ali-Flex® LF

Low foam chlorinated disinfectant cleaner

Ali-Flex® LF is a low foam disinfectant cleaner based on stabilized sodium hypochlorite (2.4% / 24,000 ppm when packed) and powerful cleaning agents. Its formula also prevents corrosion once Ali-Flex® LF is used in the Twist & Mixx system; a ready to use solution at 1000 ppm.

The cleaning agents in Ali-Flex® LF enables the liquid to wet entirely non-porous surfaces, like countertops, walls, floors, toilets, commode chairs, etc..., while degreasing and penetrating through dirt (such as urine, blood and feces). Ali-Flex® LF can also be used in food establishments.

Advantages

- Concentrated formula dilutable to the desired use
- Formula preventing corrosion
- Low odor
- Virucidal / Bactericidal / Fungicidal
- Contains powerful cleaning agents
- Low foam formula

Physical and chemical properties

Appearance	Light yellow liquid
Odor	Unscented
Viscosity (25 °C)	< 10 cPs
pH (25 °C)	11.7 - 14.0
Solubility	Water soluble
Specific gravity (25 °C)	1.055 - 1.075
Flammability	Nonflammable
Stability	Stable 1 year between 15 °C and 30 °C
Storage	Avoid frost and excessive heat
Active ingredient	Sodium hypochlorite
Percentage of active ingredient (concentrated)	2.4%

Yield (liters of diluted product)

48 L / cartidge

Available format

2 L
