MOPPING TROLLEYS

Part#8028020

VMV 2222 MOPPING TROLLEY

Part#758279

DM 2416 MOPPING TROLLEY

Part#8028010

VMW 2215 MOPPING TROLLEY

Part#8028000

VM SERIES MOPMATIC MOPPING TROLLEY

GENERAL FEATURES:

- Twin buckets ensure far less cross-contamination. The clean water remains clean longer, resulting in more area being mopped quicker and with cleaner water.
- Trolleys have a lower tray for two 10 quart buckets and an upper one for two 6 quart ones.

VMW 2215

- Adjustable wringer plungers on the wide wringer allow for use with or without the foam pad.
- The wide wringer is more efficient than other wringers as it does not require folding/unfolding the mop.

VMV 2222

- Vertical wringers can accept both flat folding mops and string mops.

DM 2416

- The DM 2416 is an ergonomic winner! Simply step on the pedal and wring out your mop.
- Vertical wringers can accept both flat folding mops and string mops.

VCN 1604

- Carts are structural foam with corner bumpers, removable/washable trays and non-marking 5" ball-bearing castors.
- They come with a zippered vinyl waste bag allowing for easy waste removal without lifting.

Part#758502 + 629113

VCN 1604 SHOWN WITH BK10 MOPMATIC KIT

MOPMATIC FEATURES:

- A unique mop preparation system providing a constant supply of clean uniformly impregnated mops.
- Whether you need to disinfect or just clean, Mopmatic leaves nothing to chance.
- The blue bucket stores the clean impregnated mops while the red bucket stores the dirty ones.

À LA CARTE PROGRAM

THE A LA CARTE PROGRAM FROM NACECARE ALLOWS YOU TO CUSTOM BUILD OUR CARTS TO SUIT YOUR SPECIFIC NEEDS.

SIMPLY CHOOSE YOUR BASE, THEN ADD ON YOUR KIT AND ACCESSORIES.

NC 3000 AND NC 4000 FEATURES:

- Carts are structural foam with corner bumpers, removable/washable trays and non-marking 5" ball-bearing castors.
- Both units are **JCAHO COMPLIANT**: Locking cabinet doors and waste cover.
- Locks are a standard feature
- The **NC 3000** includes a 4 shelves and a pedal activated enclosed 30 gallon waste container.
- The **NC 4000** has 8 shelves for more storage

DETACHABLE MOPPING SYSTEMS

- Twin buckets (standard on the NCK 100 and 200) reduce cross-contamination ensuring the clean water remains cleaner longer.
- The **NCK 100** has a standard wringer that can accept both folding flat mops or string mops.
- The **NCK 200** features a wide mop wringer which is more efficient as it does not require folding / unfolding of the mop.
- Adjustable wringer plungers allow for use with or without the foam pad.

MOPMATIC

- Attached directly to the cart MopMatic features a unique mop preparation system which provides a constant supply of clean uniformly impregnated mops or microfibre cloths.
- Whether you need to disinfect or just clean, Mopmatic leaves nothing to chance.
- The blue bucket stores the clean impregnated mops while the red bucket stores the dirty ones.

DETACHABLE AND MOUNTED WASTE SYSTEMS

- They come with a zippered vinyl waste bag allowing for easy waste removal without lifting.
- The **NCK 300 AND 400** can be detached from the cart where required
