Crew®
Restroom Floor
& Surface
SC Non-Acid
Disinfectant
Cleaner

Non-acid restroom disinfectant cleaners that cleans, disinfects and deodorizes hard, nonporous bathroom surfaces in one step.

Features

- No rinsing required for non-food contact surfaces
- Provides broad spectrum efficacy against common bathroom microorganisms
- Kills HIV-1, Staphylococcus aureus, Salmonella choleraesuis, E. coli, MRSA, VRE and other microorganisms

Benefits

- Disinfects in up to 400 ppm hard water
- Deodorizes as it disinfects
- Fresh scent

Applications

- Use in and out of the bathroom to clean and disinfect a variety of hard nonporous surfaces
- Apply by mop and bucket, trigger sprayer or sponge

Crew®

Restroom Floor & Surface SC

Non-Acid Disinfectant Cleaner

Use Directions

For General Use:

- For use on hard, nonporous inanimate environmental surfaces such as floors, walls, glazed porcelain, glazed ceramic tile, plastic surfaces, shower stalls, bathtubs and cabinets.
- To disinfect inanimate, hard nonporous surfaces, dilute according to label directions.
- Apply solution with a mop, cloth, sponge or hand-pump trigger sprayer so as to wet all surfaces thoroughly.
- Allow to remain wet for 10 minutes then remove excess liquid.
- For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh solution for each use.

For J-Fill® Use:

- Insert cartridge into dispenser (see J-FILL® dispenser instructions for proper cartridge placement). Fill small bottle or bucket or use gun to apply a foam directly onto surfaces to be cleaned, scrubbing with a soft brush, pad or cloth. Do not allow foam to dry. Rinse surfaces thoroughly. NOTE: Some commercial strength cleaners are unsuitable for use on some surfaces. Test in an inconspicuous area prior to use.

For RTD® Use:

- Fill trigger spray bottle with product. Apply to surfaces to be cleaned.
- Wipe with clean cloth or towel to dry. Dilute with cold water.
- To avoid food contamination after cleaning, sanitize and rinse all food contact surfaces with potable water before reuse.

For Snap N' Dose™/MC Pro Use:

- Fill properly labeled spray bottle with 946ml/1 U.S. Qt. (32 fl. Oz.) of potable water.
- Using one hand to secure the package, use the second hand to snap open the top of the spout-tip. Do not apply excessive pressure to the package while opening. Keep spout-tip upward when snapping open so not to spill contents.
- Dose concentrate into the bottle by carefully inserting the open spout-tip into the top of the spray bottle, give the tray a light squeeze to ensure complete evacuation of product concentrate.
- Allow the tray to fully evacuate into the bottle for about 4 to 6 seconds.
- Firmly screw down the spray head to the bottle, give the bottle a light shake and you are now ready to clean.

Product Specifications

Description	Concentrate
EPA Reg. No.	1839-169-70627
Color/Form	Green liquid
pH	6.0-8.0
Scent	Fresh
Shelf Life	1 year

Description	Superconcentrate
EPA Reg. No.	1839-169-70627
Color/Form	Green liquid
pH	7.0-7.25
Scent	Fresh
Shelf Life	1 year

Safety Reminder

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use, and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDSs are available on-line at www.sealedair.com or by calling 888 352 2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate. Please refer to the Diversey HazMat Library, only available through Internet Explorer, <http://naextranet.diversey.com/dot/>, for up to date shipping information.
