

ELECTRIC FOGGER MACHINE

The BIG D® **ELECTRIC FOGGER MACHINE** is a Cold Fog ULV/Mister with a rugged nylon nozzle. This device is intended for applications of both oil bases (following necessary precautions) and water-based chemical treatments including wettable powders and wet flowables. The body and tank are made of high-density chemical resistant polyethylene. The applicator is useful for dispensing most chemicals which are labeled for aerosol or mist applications such as disinfectants, deodorizers, germicides, insecticides, etc. in locations such as hospitals, schools, nursing homes, greenhouses, stables, warehouses, homes, and farm buildings.

Note: When using the **ELECTRIC FOGGER MACHINE**, read the chemical label and follow all instructions carefully.
