TECHNICAL DATA SHEET

PACKAGING	CODE
12 x 946 mL (12 x 32 US fl oz)	2463210001
4 x 4 L (4 x 1.06 US gal)	2463278001

DESCRIPTION:

ERADIK8•RTU All Purpose Disinfectant Cleaner and Sanitizer is an all-purpose, ready-to-use quaternary-based broad-spectrum disinfectant cleaner and sanitizer. When used as directed, this ready-to-use disinfectant (contains 3000 ppm of active germicide) making it effective against a broad spectrum of microorganisms. It quickly removes dirt, grime, food residue, blood and other organic matter. It also eliminates odors leaving areas and surfaces smelling clean and fresh.

This non-abrasive product is specially formulated to clean and disinfect hard, non-porous surfaces of: furniture, appliances, bathrooms, garbage cans, toilet bowls, urinals, floors, personal protective safety equipment, gym equipment and mats, metal surfaces, stainless steel, porcelain, glazed ceramic tiles, and plastic surfaces. Ready-to-use disinfectant will not harm most surfaces: including acrylic, sealed fiberglass and vinyl. Do not use on unpainted wood.

It contains no solvent, alcohol or bleach and is recommended for use in offices, education facilities, hospitality, nursing homes, healthcare, recreational facilities, camp sites, animal housing areas, farm premises, prisons, transportation and mortuaries.

Consult product reference sheet for more information on its effectiveness.

USE DIRECTIONS FOR CLEANING:

NOTE: This product is not for use on critical and semi-critical medical device surfaces.

Spray soiled area then wipe with a dry paper towel or microfiber cloth.

DISINFECTING, DEODORIZING (appliances, non-critical medical equipment, and non-porous hard surfaces):

- 1) Remove gross filth or heavy soil prior to application of this ready-to-use disinfectant.
- 2) Hold container 15-20 cm from the surface to be treated. Spray area until it is covered with the product.
- 3) Allow surface to remain visibly wet according to the necessary contact time as indicated on the table below. No scrubbing necessary.
- 4) Allow treated surfaces to air dry or wipe off with a clean microfiber cloth, mop or sponge.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV) SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION: Disposable latex or vinyl gloves, gowns, face masks or eye coverings as appropriate, must be worn during all cleaning of blood/body fluids, and decontamination procedures.

CLEANING PROCEDURE: Blood/body fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant.

CONTACT TIME: 2 minutes. (HIV-1 is inactivated in 30 seconds, HBV and HCV are inactivated in 1 minute).

INFECTIOUS MATERIALS DISPOSAL: Any materials used in the cleaning process that may contain blood or body fluids are to be disposed of immediately in accordance with local regulations for infectious materials disposal.

EFFICACY TESTS HAVE DEMONSTRATED THAT THIS READY-TO-USE DISINFECTANT IS AN EFFECTIVE BACTERICIDE AND VIRUCIDE IN THE PRESENCE OF ORGANIC SOIL (5% BLOOD SERUM).

SANITIZATION (non-food contact surfaces and deodorize):

- 1) To sanitize/deodorize hard, non-porous surfaces, hold container 15-20 cm from the surface to be treated.
- 2) Spray area until it is covered with the product.
- 3) Allow surface to remain visibly wet for 5 seconds. Let surface dry.
- 4) For heavily soiled surfaces, a pre-cleaning step is required.
- 5) For surfaces that may come in contact with food, a potable water rinse is required.

NOTE:

Please refer to product label or safety data sheet for complete information on safety and for personal protective equipment.

The data presented herein is based on experiments and information believed reliable. However, we can make no guarantee on performance of, or results obtained through the use of the product herein described owing to varying conditions in laboratories and plants over which we have no control. Neither can any guarantee be given that the products or uses outlined will not infringe any existing patents.

READY-TO-USE

PRECAUTIONS FOR FOOD PLANTS:

Equipment and surfaces subjected to direct food contact must be thoroughly rinsed with potable water after using this product. Avoid contamination of food during use. With spray applications, cover or remove all food products. Do not use on utensils, glasses and dishes. Do not store in food-processing or food-storage area.

PRECAUTIONS FOR BARN PREMISES USE: Remove animals/poultry and their feed from the premises before disinfection. Remove any heavy soiling, such as urine and feces, from surfaces and objects before disinfection. Empty feeders and drinkers before disinfection. After disinfection, ensure that the premises are ventilated before entering animals/poultry. Any surface and/or object that will come into contact with animal feed or water should be rinsed with potable water before being reused.

STORAGE:

Do not contaminate water, food or feed by storage and disposal. Store in a cool, dry place at room temperature.

DISPOSAL:

Rinse the emptied container thoroughly. Make the empty container unsuitable for further use. Dispose of the container in accordance with Federal, Provincial and Local regulations. For information on the disposal of unused, unwanted product and the cleanup of spills, contact Provincial regulatory agency or manufacturer.

RECYCLING:

This product package including the container, label and shipping carton are all designed to be recycled.

NOTE:

Please refer to product label or safety data sheet for complete information on safety and for personal protective equipment.

The data presented herein is based on experiments and information believed reliable. However, we can make no guarantee on performance of, or results obtained through the use of the product herein described owing to varying conditions in laboratories and plants over which we have no control.
