COMPOSTABLES

Human activity releases huge volumes of carbon based plastics to the environment due to the lack of proper waste disposal and recycling and their inability to Compost.

Plastics never truly degrade, but rather break down into smaller pieces floating in waterways and oceans.

Plastic disrupts marine life and moves up the food chain which eventually ends up in the human body resulting in many health risks including digestive problems and various forms of cancers.

*Globe Commercial Products is proud to introduce our Compostables take-out container program to start reducing your carbon footprint.
Eat clean with Compostables by Globe.*

MADE FROM 100% RENEWABLE RESOURCES.
OUR DISPOSABLES ARE FOOD SAFE,
NATURAL, NON-TOXIC AND BPA FREE.

Ideal for restaurants, food trucks, bakeries, party favors, coffee shops, hotels, offices, gatherings, take-out orders, picnics, events and other businesses.

COMPOSTABLES BY GLOBE ARE A COLLECTION THAT WON'T STAY IN LANDFILLS FOR YEARS, POLLUTE OCEANS OR POSE A THREAT TO MARINE LIFE.

Perfect for both hot and cold foods, Microwave Safe, Freezer Safe, Grease Resistant and Hot/Cold beverages too. Globe offers a full line of Sucarcane and Paper based Compostable Solutions.

**SAY NO TO PLASTIC WITH OUR

100% Compostable
Plant Based

SIMPLE AND SMART CHOICES FOR TODAY AND TOMORROW

BAGASSE 100% Compostable NATURAL Premium Plant Based

Our bagasse plates, bowls and hinged containers containers are made of 100% sugarcane fiber, a sustainable, renewable, and biodegradable material making it a great alternative to traditional carbon based plastics or foam.

These quality fiber take-out containers are microwave safe, freezer safe and great for hot and cold foods.

Bagasse material is cut resistant, strong enough to hold a variety of food without bending or breaking.

- Leak free, sturdy, stackable and engineered for heavy duty use
- Eco-friendly, soak-proof, leak-proof, and a sturdy alternative
- Dual-tab for secure closure on hinged containers
- Sugarcane pulp is hygienic and is 100% biodegradable in 90-180 days

CUPS & LIDS **100% Compostable** **NATURAL** Premium Plant Based

Our 100% compostable paper cups promote sustainability and are an alternative to plastic & Styrofoam cups.

Our cups are lined with PLA which is a renewable bio-resin made from corn.

As a liner, it resists leaking and is used instead of the typical petroleum-based cup lining.

These non-toxic, classic hot/cold cups are ideal for serving coffee, tea, and any cold beverages.

Our lids are completely bio-based and compostable.

They are made of sugarcane pulp which will compost 100% in 90 to 180 days.

Smooth finish and dome top style for comfort and easy sipping.

- Elevated spout for comfortable and enjoyable sipping
- Cups sold separately
- Pin hole for improved air flow
- Compostable premium quality alternative to plastics

- Stackable design for space-saving storage and easy dispensing
- Rolled rim provides tight, snug spill-free fit
- Compostable food services product
- Lids sold separately
