

INTRODUCING The Healthy Workplace Project* Desk Caddy

Based on more than **40,000** surface swabs in a variety of offices and facilities like yours, we've discovered a startling fact:

Offices are dirty places. In fact, the average office hotspot has **3 times** more germs than the average toilet seat!

That's why you need **The Healthy Workplace Project* Desk Caddy**. It helps you educate and encourage employees to **Wash - Wipe - Sanitize** to reduce the spread of germs in their workplace. Plus it puts the tools they need right in their hands.

- » Compact caddy holds KLEENEX® Moisturizing Instant Hand Sanitizer, KLEENEX® Anti-Viral† Facial Tissue and SCOTT® Disinfectant Wipes
- » Just the right size for an office, conference room table or break area
- » Choice of white desktop caddy or upscale polished wire caddy you can hang or place on a desktop or counter
- » Allows each employee to play an active role in improving workplace health

Standard Desk Caddy »

More germs than a toilet seat?

That's right. **The average toilet seat has a ATP count of 55.** Adenosine Triphosphate (ATP) is a living cell's source of energy.

Through ATP readings, we can measure the biological concentration of bacteria on a surface. Here are some relative ATP counts from different office surfaces.

- **DESK**
ATP Count - **152**
- **PHONE**
ATP Count - **164**
- **KEYBOARD**
ATP Count - **284**
- **MOUSE**
ATP Count - **165**
- **VENDING MACHINE**
ATP Count - **151**
- **MICROWAVE**
ATP Count - **315**
- **DOOR HANDLE**
ATP Count - **138**

Now Everyone Can Join The Fight Against Germs

This handy caddy is a key element in **The Healthy Workplace Project**[†], the first KIMBERLY-CLARK PROFESSIONAL* program that addresses germs not just in restrooms, but throughout the workplace.

The **Wash - Wipe - Sanitize** protocol is an effective way to reduce the spread of germs in the workplace.

1. WASH

- Wash your hands vigorously with soap and water each time you use the restroom
- Dry your hands with a clean paper towel — this removes up to **77%** of the bacteria which remains after washing

2. WIPE

- Using sanitizing wipes, take 2 minutes each morning to wipe the following office surfaces:
 - » Telephone keypad
 - » Keyboard
 - » Mouse
 - » Desk

3. SANITIZE

- Use hand sanitizer in the following situations:
 - » When you arrive at work
 - » Before and after eating
 - » Before and after meetings
 - » When you leave work
