

**Beast.**

*Standard slide-out bag holder eases installation and removal of polyliner bag.*

*Unit accepts 35-gallon (132.5L) Rigid Liner #3958, purchased separately.*

**ideas that last™**

# Beauty.

**Plaza™ Container**

## The Rubbermaid® Plaza™ Container opens the door to improved waste handling.

The Rubbermaid® Plaza™ Container combines upscale aesthetics with ergonomic design, making it ideal for outdoor use in public facilities such as stadiums, airports, malls and office buildings.

While patrons will notice the Plaza™ Container's handsome appearance, workers will appreciate its ergonomic design. A side-mounted hinged service door opens to give full access to the container's interior for easy servicing. To remove a full polyliner bag without awkward heavy lifting, simply slide out the standard polyliner holder. Or equip the Plaza™ Container with

the optional seamless Rigid Liner #3958 where leakage is a concern.

The Plaza™ Container keeps refuse under cover – with two spring-loaded swing doors that help conceal waste, contain odors and control pests. There's also an ash tray model for public smoking areas.

To help discourage tampering, we've added a lock-latch that works with or without its key. And the container base accommodates tie-downs for secure installation.

The Rubbermaid Plaza™ Container. It's a beauty every way you look at it.

*Stainless steel ash tray version features two-piece construction for easy cleaning.*

*Customize your Plaza™ Container to make a bold public impression with multi-color screen imprinting on the front and back of the Plaza™ Container.*

# Rubbermaid® Indoor/Outdoor Container Selection Guide

# Rubbermaid® Plaza™ Container – an improved design inside and out.

50 U.S. gallon (189.3 L) capacity with polyliner #5088; also accepts the 35 U.S. gallon (132.5 L) Rigid Liner #3958, sold separately.

Stainless steel ash tray features two-piece construction for ease in cleaning.

Heavy-duty plastic construction with molded-in color and UV inhibitors. Resists dents and fading. Will not rust.

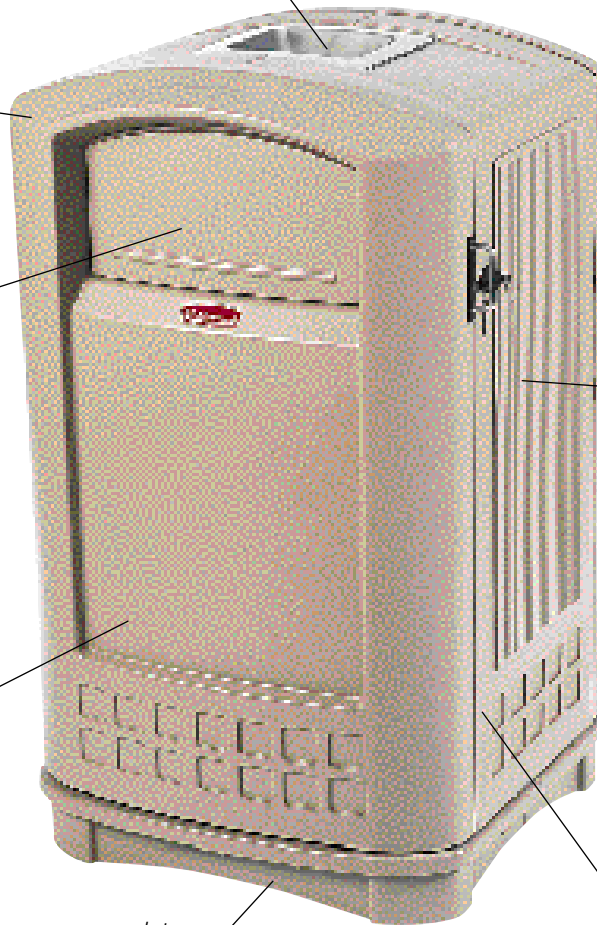

Two spring-loaded doors help conceal waste, contain odors and control insects.

Lock-latch feature can be used with or without its key.

Full-size, side-mounted door eases servicing. Stainless steel hinge provides reliable, durable performance.

Container base accommodates tie-downs for secure placement.

Textured finish helps hide surface scratches.
