

# PPR320H

## Advancing Vacuum Technology

The new design of the PPR series has led to significant advances in energy consumption as well as overall vacuum performance. They consume 40% less energy than previous models while improving performance by 20%. This is all thanks to the new 680 watt vacuum motor with a 2000+ hour life. The noise level on the PPR series has also changed to 45/47 dB(A) which makes these units excellent for daytime cleaning.

Compact and quiet yet featuring all the performance and filtration of our larger units

Cord rewind with easily replaced power cord

With 100" of water lift and 120 cfm it can handle even the largest of jobs

Its a two speed machine which at 45/47 dBA can be used anywhere

The 4 stage filtration meets or exceeds European standard #3928 Each unit provides a minimum filtration level of 99.97% at 0.3 microns with our certified serialized HEPA filter

Every unit is individually tested using a sodium flame test and particle counter and comes with its own test certificate verifying all Standards have been exceeded

It meets the requirements of the EPA's Lead Safe Certified Contractor program

Tank Capacity	2.5 Gallon	Power Cord Length	33'
Vacuum Motor	680W,0.9 hp,1 Stage,2 Speed	Hose Length	8.5'
Number of Motors	1	Pump Power	
Airflow (CFM)	120 CFM	Pump Type	
Waterlift (Inches)	100"	Flow Rate	
Noise Level dB(A)	45/47 DB(A)	Weight	16.5 LBS
Head Construction	POLYPROPYLENE		
Tank Construction	POLYETHYLENE
