## Easy Maintenance

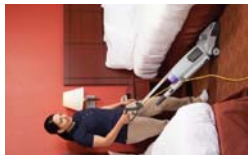

Quickly remove clogs without tools through four convenient access points: under the powerhead, at both ends of the hose, and where the wand attaches to the base. The brush roll can also be removed without tools for quick service turn-around time.

## Durable Construction & Proven Reliability

For more than 30 years, ProTeam has designed vacuums with durability and quality in mind. These vacuums are low maintenance and long lasting, with multi-year warranties to back them up. Subjected to extensive laboratory and field tests, the lightweight molded plastic body of this new upright was proven to withstand heavy-duty wear and tear.
