

# Granular Absorbents

## Oil Dri QuickSorb Absorbent I05000, I05025

**Issue:** Potential safety hazards are present where leaks, drips, sprays or spills are most likely to occur.

**Solution:** A spill control plan should be developed with absorbent products readily available to control daily leaks and spills in and around your plant or to use in case of an emergency.

**Description:** Made from the same high-quality material as our best selling Oil-Dri® absorbent, Oil-Dri® QuickSorb® has been specially processed for greater absorption power. Smaller granules offer more surface area and allow Oil-Dri QuickSorb® to absorb up to twice as much liquid per pound as conventional floor absorbents, so you can use half as much! Use on a variety of spills, including oil, grease and water.

### Features & Benefits:

- **Versatile** - Use for all non-aggressive fluids
- **Superior Retention** - Hold liquids in
- **Strong** - Won't breakdown and turn to mud
- **Smaller Granules** - More surface area equals quicker absorption
- **Low Density** - More scoops per pound saves money

### Disposal Information:

Oil-Dri products must be disposed of in compliance with local, state and federal regulations. Since various fluids absorbed may be of toxic or hazardous in nature, Oil-Dri does not recommend disposal procedures.

### OIL-DRI® QUICKSORB® GRANULAR ABSORBENTS
