

Yellow ramps
available for increased
safety (pre-assembled
sizes only)

TERRA COTTA

BLACK

- For commercial food applications and/or wet areas e.g.: dishwashing areas, kitchens, cafeterias, ski resorts...
- Provides good support against muscular fatigue and better slip resistance and insulation than that of cement or ceramic floors
- Heavy-duty rubber allows easy drainage of liquids and debris
- Nitrile Rubber blend (terra cotta) required for applications with grease and oil

Anti-fatigue

In comparison to all our mats.

SAFE-FLOW PLUS™

CLASSIC
WET/FOOD PREP. AREAS

SAFE-FLOW PLUS™

- For commercial applications in food preparation areas e.g.: butchers, bars, kitchens, food preparation stations...
- Provides good support against muscular fatigue and better slip resistance and insulation than that of cement or ceramic floors
- Specially formulated surface resists oil, grease, chemicals and animal fats while allowing easy drainage of liquids and debris
- Anti-microbial agent inhibits the growth of odor-causing bacteria and fungi
- Easy to clean and handle. Launderable.

Anti-fatigue

In comparison to all our mats.
