STAINLESS STEEL CORELESS STANDARD ROLL BATH TISSUE DISPENSER

24-gauge brushed stainless steel cover and sliding door with folded edges. The back and arms are made of molded plastic and the brushed stainless steel cover with sliding door is attached to the plastic housing by the hinge pins. This dispenser features a key-activated spring lock or push button operation and a hinged front cover.

Suggested Mounting Height of 30"

NOTE: Unless otherwise noted, suggested mounting height is the distance from the floor to the bottom of the dispenser.
