

Snow Rhino | Zero Turn Snow Plow

Overview

Snow Removal Like You've Never Imagined

Bringing truly inspired innovation to the snow removal industry, the Snow Rhino is unlike anything you have seen before. While this zero turn snow plow is compact enough to get to those hard to reach areas, do not let that fool you. This track drive snowplow packs enough power to tackle even the most brutal of snowstorms. The first machine of its kind on the market, zero turn allows you to maneuver with precision and ease. Speaking of ease, with the Snow Rhino, there is no more strenuous hours spent shoveling sidewalks because this machine allows you to stand on it while operating, making it ideal for professional snow removal teams and homeowners alike. Adjustable blade length, plow angle, and hydraulic plow height adjustment are just some of the other unique components of convenience that make this stand-on, zero turn snow plow, the ultimate machine to completely reinvent the way you clear snow.
