

STOKO VITAN®

STOKO VITAN® LOTION

PRODUCT INFORMATION

Conditioning cream or lotion for very dry, sensitive skin. Contains vitamin E, beeswax, grapeseed oil and allantoin to help regenerate skin.

STOKO® VITAN/STOKO® VITAN LOTION are swiftly absorbed, silicone-free skin care products for very dry or sensitive skin. High-quality ingredients care for the skin and help maintain the skin's natural barrier. Both products contain a skin care complex consisting of grapeseed oil, vitamin E, beeswax and allantoin to support the natural regeneration of the skin. The natural lipids, grapeseed oil and beeswax are perfectly suited to condition the skin and replace lost oils. With its soothing property, allantoin helps to regenerate overworked skin. When used regularly, they help restore smooth, supple texture, even with dry, rough skin.

| Ingredients | STOKO VITAN® | STOKO VITAN® LOTION |
|---------------------|--------------|---------------------|
| Grapeseed oil | 10% | 15% |
| Urea | 2.5% | 2% |
| Vitamin E | 0.2% | 0.2% |
| Allantoin | 0.3% | 0.3% |
| Glycerine | 2.5% | 1% |
| Beeswax | 2.5% | - |
| Total lipid content | 24.0% | 19.0% |

Thanks to their well-balanced overall composition, the products are particularly suitable for replenishing the skin's own oils and moisturizers lost through contact with workplace substances, and they can thus make a very real contribution to restoring the skin's natural barrier function.

STOKO VITAN® LOTION is fragrance-free for those who are sensitive to fragrances and perfumes.

STOKO® Skin Care
"Keeping Working Skin Healthy"

Application

Prior to each application of STOKO VITAN®/STOKO VITAN® LOTION, the skin should be washed and dried thoroughly. Then, rub STOKO VITAN®/STOKO VITAN® LOTION carefully into the skin, including between fingers and around nails. Use regularly after each washing and after work. STOKO® VITAN/STOKO® VITAN LOTION can be used on the hands, face and body.

Skin Compatibility Tests

Both human experimental test methods and practical use have shown STOKO® VITAN/STOKO® VITAN LOTION to possess very good skin compatibility properties (Research and Development Department Stockhausen GmbH & Co. KG, and Certificate by the Department of Dermatology, Clinic Krefeld, Germany).

Accordingly, in a scarified Duhring Chamber Test based on Frosch and Kligman (7), as well as Kresken et al., STOKO VITAN®/STOKO VITAN® LOTION exhibited very good skin compatibility properties (see table).

Table: Skin compatibility of STOKO VITAN® and STOKO VITAN® LOTION in the scarified Duhring Chamber Test¹

| Product | Irritation ² | Application Time ³ |
|---------------------|-------------------------|-------------------------------|
| | --- | --- |
| | x | h (hrs.) |
| STOKO VITAN® | 1.0 | 68.2 |
| STOKO VITAN® LOTION | 1.1 | 67.2 |
| Vaseline | 0.9 | 66.2 |

(Footnotes follow on page 2)

Skin Compatibility (cont.)

¹ n=25

Test period: July, 2001: Test concentration: undiluted

² Averages of the cumulative irritation parameters redness, scaling and fissuring were each evaluated visually on the basis of a rating scale of 0 (no symptoms) to 4 (most severe symptoms). Maximum value: x =12 (most severe symptoms)

³ Maximum application time: h=72 hrs. (24 hrs. each on three successive days).

Source: Certificate by the Department of Dermatology, Clinic Krefeld, Germany, dated August 2001.

First Aid

In case of accidental eye contact with product, flush thoroughly with lukewarm water for 15 minutes. Contact a physician. Keep out of reach of children.

Storage Information

STOKO VITAN/STOKO VITAN LOTION can be stored in a closed container at room temperature for at least 30 months.
