TC Pump System

Automatic Odor Control Pump System

- Environmentally Responsible - Non-Aerosol System
- Effective Odor Control
- Easy to Maintain
- User-Friendly Performance

TC Pump System - Automatic Odor Control Pump System

The Pump System provides highly effective odor neutralizing through a patented dry spray pump in a non-aerosol system. TC Air Neutralizers all contain Microtrans® Odor Neutralizer to lock onto malodor molecules transforming them into a neutral base that eliminates unavoidable odors in the washroom. Then TC adds carefully selected and customer preferred fragrances to raise awareness and to reinforce cleanliness of the washroom.

Effective Odor Control

The Pump dispenser maximizes odor control effectiveness, while keeping cost-in-use under control.

Effective in areas up to 6,000 cubic feet!

Easy to Maintain

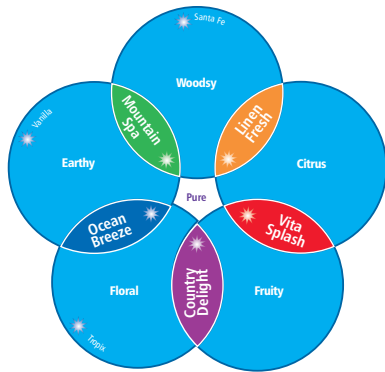

Replacing refills is simple and visual and audio cues provide notice when a refill or batteries will need to be replaced.

Better for the Environment

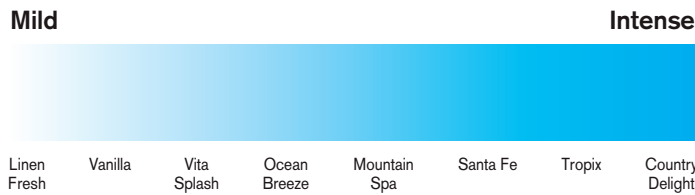

Water-based formulas and low VOCs make the TC Pump System a preferred environmental solution.

User-Friendly Performance

Traditional air fresheners only camouflage malodors. TC Air Neutralizers with the proprietary Microtrans® technology have been designed to eliminate unavoidable odors in the washroom for an optimum washroom experience.

Fragrance Intensity Chart

TC Pump Dispenser Features:

TC Pump LED
400695

TC Pump LCD (See Cover):
