

Technical Data

Model	K3
Dimensions	170*115*140mm
Net weight	275g (Without battery)
Color box size	205*150*177mm
Gross weight	500g
Certificate	CE,FCC,RoSH,FDA
Patent	Design patent & new practical patent Alarm function
Measurement technology	No contact on forehead of infrared thermometer
Measurement methods	Infrared distance sensor
Unit of measure	°C/F
Accuracy	±0.2 (34~45°C)
Measuring distance	5 ~ 10 cm
Display	Electronic digital tube display
Install Method	Nail hook/bracket fixing/
Power supply	USB /18650 Li-ion battery
Response time	0.5S
Working band	5 microns
Standby time	Continuous standby
Operating mode	Surface mode /body mode / Count mode

Surface temperature measurement range	10--50°C
Range of Body Mode temperature	35--42°C
Environment temperature	10--40°C
Counting capacity	999 times

Record temperature data	Not Support
Alarm Function	Flash+sound alarm for about 20 times
IO signal output	Not Support
Environment temperature measurement	Software supports measurement (continuous refresh measurement)
Volume setting	Not Support
Upper alarm limit	Support software setting(37--38°C)
Connect to the computer	Support
Charging	Support (18650 Li-ion Battery)
Warranty	1x thermometer, 1x USB cable, 1x screw, 4x hooks, 1x software manual, 1x operation manual
