

SCOTCHGARD™ VINYL FLOOR PROTECTOR

Durability and shine with less maintenance

Scotchgard™ Vinyl Floor Protector helps deliver durable floors with less labor — and a significantly higher return on investment.

In just two coats, Scotchgard™ Vinyl Floor Protector produces a clean, shiny floor that is less susceptible to scuffs, black marks, stains and scratches than traditional acrylic floor finishes. This high-performance product lasts for up to a year with minimal maintenance. That means you can spend less of your operations budget on labor and floor-finishing chemicals, without sacrificing your clean floors.

Features and benefits:

- Helps protect against stains, scuffs and scratches for a long-lasting finish
- Only two coats are needed, helping to reduce maintenance
- Dries in 20 to 30 minutes, so rooms are functional faster
- Easy to reapply — no stripping or deep scrubbing required
- Provides an environmentally preferable solution* for greener cleaning
- Suitable for multiple substrates: vinyl, vinyl composition, rubber, linoleum and asphalt tile floors
- Up to 3,000 square feet of coverage per 3.78L bag when used as directed with the 3M™ Easy Shine Applicator System
- Not a traditional floor finish — Scotchgard™ Vinyl Floor Protector is a high-performance floor protector that utilizes nano-sized, inorganic particles that, upon curing, produce a surface that is up to six times more resistant to abrasion than traditional acrylic floor finishes

Helps reduce your
operations costs by
up to 45% in the
first year.

Scotchgard™ Vinyl Floor Protector helps provide protection for up to one year. Studies show that reducing the maintenance and chemical requirements associated with traditional acrylic floor finishes can result in up to 45 percent savings in operations costs the first year and up to 55 percent savings in subsequent years.

Protection that pays

Scotchgard™ Vinyl Floor Protector

A durable surface that's easy to apply and repair

Scotchgard™ Vinyl Floor Protector installs easily: strip, burnish, dust and apply. The unique backpack application is as simple as mopping, so virtually anyone on your staff can do it. The product is contained in a sealed pouch, so there's no pouring and less likelihood of chemical contact.

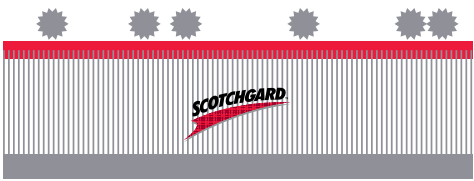

Once Scotchgard™ Vinyl Floor Protector is applied, you can maintain it for up to a year with regular dust mopping, damp mopping or machine scrubbing, as necessary.** If scratches occur between re-applications, a quick burnish with Scotch-Brite™ Purple Diamond Floor Pad Plus helps restore the appearance. And, when it's time to recoat, simply clean the floor and reapply — no need to strip or deep scrub.

Scotchgard™ Vinyl Floor Protector creates a surface that resists water, stains and dirt, so finished floors are easily cleaned by dusting and wet mopping — leaving behind a clean, smooth floor with a beautiful shine.

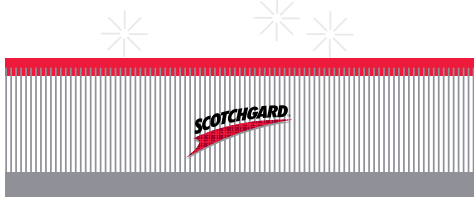

Scotchgard™ Vinyl Floor Protector works best in combination with these products:

- Scotch-Brite™ Purple Diamond Floor Pad Plus
- 3M™ Easy Trap Duster
- 3M™ Easy Shine Applicator System

Before Cleaning
Dirt only “sits” on the surface and is easily cleaned away with neutral cleaner.

After Cleaning
Dirt is easily removed, leaving behind a clean, smooth floor with beautiful shine.

Key: ■ Surface
 Dirt Particle

Item #	Product Name	Quantity/Size	Description
59393	Scotchgard™ Vinyl Floor Protector, 3.785 liter bag	2	High performance floor protector that utilizes nano-sized, inorganic particles. Applied with 3M™ Easy Shine Applicator and has excellent stain, scuff and scratch resistance

* Environmentally preferable products are defined in the Instructions for Implementing Executive Order 13423, titled “Strengthening Federal Environmental, Energy, and Transportation Management” as products or services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. This comparison may consider raw materials acquisition, product, manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the product or service.

** Do not use any floor cleaning chemicals containing 2-butoxyethanol as this will damage the coating surface.
